Product Data Sheet

WELLCOAT FUNGICIDAL WASH

Wellcoat fungicidal wash is a solution of mixture of isothiazoline derivatives embedded in aqueous polymer solution. Product contains special isothiazoline compound with long term dry film protection against algae, fungus & other micro organism. The biocides used are stable to heat, light & PH.

PRODUCT

- Very potent biocide with no effect on human
- Remain on the applied area for a long time
- Easy to apply

FEATURES

For cleaning concrete, cementitious surface (already painted & green) before painting. Application of this product is essential where environment is very hot & humid promoting biocide growth.

RECOMMENDED USE

The product is supplied in ready to use condition. Can be applied by Brush, Roller, Rag or Sponge.

APPLICATION METHOD

Color : Colorless liquid
Specific gravity@ 300C : 0.98-0.99
Smell : Mild
Thinner/Diluent : Sweet water
Drying @ 300C : Touch dry – 2 hrs
Over coating : 5-6 hrs

SPECIFICATION & OTHER INFORMATION

Clean the concrete or cementitious surface with plenty of water followed by scrubbing with hard wire brush & wash again with water. After half an hour apply fungicidal wash solution as recommended. Don't leave the surface uncoated after anti fungal treatment for more than 24 hrs.
